EDUCATION

National Open University of Nigeria.	Abuja, Nigeria
Bachelor Of Science (HONORS) - Computer Science.	January 2020 - February 2024

SKILLS SUMMARY

- Languages :** Python, C, Java, Dart, SQL, JavaScript, HTML, CSS
- Databases and Management Systems :** SQLite, MySQL, Postgres, MongoDB, SQLAlchemy, SQL Server
- Frameworks :** Flask, Django, React, Flutter, Express, Node, Web2py, Spring Boot
- Libraries :** Pandas, Numpy, Matplotlib, BS4, Sci-kit Learn, Pygame, Tkinter, TensorFlow
- Tools :** Bootstrap, PowerBi, Tableau, Matplotlib, Word, Excel, API, CLIs, Git
- Platforms :** Python IDE, Pydriod3, Sublime Text, Jupyter Notebook, Visual Studio Code
- Soft Skills :** Agile, Object Oriented Programming, People and Resource Management, Report Building and Writing

WORK EXPERIENCE

FULL STACK SOFTWARE ENGINEER TUNJIO LABS - Remote	January 2025 – Present
- Working with LLMs to build personalized user assistant, prompting based on user’s data, activities and interest. - Working on front-end web and app development using React and Tailwind CSS.	
FULL STACK SOFTWARE ENGINEER APTECH LEARNING - Chevron	September 2024 - Present
- Tutorials and projects on web and app development using HTML, JavaScript, CSS, Django, Flask, React, Flutter - Tutorials on algorithm design and backend/frontend software development using Java, Python, Dart, C, JavaScript.	
TECHNICIAN CALLISTRIO ICT ENGINEERING - Lagos	May 2023 - October 2023
- CCTV and Network hardware installation and system configurations, maintenance and upgrade. - Fire Emergency System hardware installations and system configurations, maintenance and upgrade.	
PRIVATE PROGRAMMING TUTOR FREELANCE/SELF EMPLOYED - Remote	December 2022 - April 2023
- Tutorials on backend software development using Python, Java - Tutorials on web development using HTML, CSS, Bootstrap, Spring boot, Flask and Django.	
DATA ANALYST AND SCIENTIST FREELANCE/SELF EMPLOYED - Remote	September 2022 – Sept. 2024
- Collaborating with researchers, developers and Scientist in data generation, cleaning and standardization. - Participating in paid bounty programs on Stackup and Bug bounty platforms.	
SOFTWARE AND WEBSITE DEVELOPER FREELANCE/SELF EMPLOYED - Remote	May 2021 - September 2024
- Collaborating with developers in quality assurance tests on their website and software projects. - Sole developing Treasurestone E-learning website for Treasure Stone Academic Private Schools.	

PROJECTS - [View more...](#)

Data Wrangling on WeRateDogs Twitter Page - Using Twitter API to generate data from a Twitter page to perform data analysis.
Data Wrangling on TMDb Movies - Using Web Scraping to generate data from the TMDb Movies website to perform data analysis.
Search Server - I was able to develop a search server that can perform query search of strings with over a million lines under 0.15s.
MP3 PLAYER - Using pygame and Tkinter to develop an mp3 player software that works with screen touch and selection navigation.
E-learning Website - Using Flask to develop an e-learning website that includes CBT, results printing, file upload and download.
MealOrdering – Using Flask to develop a website for restaurant menu setup and display, user registration, and meal ordering.

CERTIFICATIONS AND COURSES

ALX-T Data Analyst. Udacity/ALX Certificate	July 2022 - September 2022
AWS Machine Learning Foundation 2022. Udacity/AWS Certificate	July 2022 - September 2022
Course - Machine Learning Udacity	2022
Course - Linux Command Line Basics Udacity	2022
Course - Intro To Data Analysis Udacity	2022
Course - Version Control With Git Udacity	2022
