

SOLOMON MUOGHARA

Machine Learning Engineer | AI Systems | LLM Integration

Email: nerdsolomon@gmail.com | GitHub: github.com/nerdsolomon | Portfolio: nerdsolomon.github.io/portfolio

PROFESSIONAL SUMMARY

Machine Learning Engineer with experience building AI-powered applications and implementing data-driven models. Skilled in model training, data preprocessing, and LLM integration into production-ready applications. Strong foundation in supervised learning, data pipelines, and Python ML libraries.

TECHNICAL SKILLS

Languages: Python, SQL

ML Libraries: Scikit-Learn, TensorFlow, Pandas, NumPy

AI Systems: LLM Integration, Prompt Engineering

Data: Feature Engineering, Data Cleaning, EDA

Deployment: Flask, Django APIs

PROFESSIONAL EXPERIENCE

Full Stack Engineer – AI Systems

Tunjio Labs | 2025

- Built LLM-powered personalized assistants using contextual modeling.
- Designed prompt engineering workflows to improve response accuracy.
- Integrated AI systems into scalable web applications.
- Developed API endpoints for AI-driven features.

PROJECTS

Personalized ChatBot

- Built AI chatbot using React and OpenAI LLM integration.
- Implemented contextual memory logic for personalized conversations.
- Designed backend logic to process and store user interaction data.

TMDB Data Analysis

- Conducted feature analysis on movie datasets.
- Applied statistical reasoning to identify trends.

EDUCATION & ML TRAINING

AWS Machine Learning Foundations

Udacity | 2022

Machine Learning Course

Udacity | 2022

B.Sc. Computer Science (Hons)

National Open University of Nigeria | 2024
